🧠 SKILLS

Technical Skills

- **Programming:** Java, JavaScript, C#, Python
- **Web Development:** React.js, Node.js, Express.js, HTML5, CSS3
- **Database Management:** MySQL, MongoDB, SQL Server
- **IT & Networking:** Computer Networking Fundamentals, IT Support, Basic Troubleshooting, Operating System Fundamentals
- **Tools & Technologies:** Git, GitHub, Visual Studio Code, Android Studio
- **Other:** REST APIs, Object-Oriented Programming, Database Design

Soft Skills

- Problem Solving
- Teamwork & Collaboration
- Communication
- Quick Learning & Adaptability
- Time Management
- Attention to Detail

📄 SUMMARY

An enthusiastic Information Technology student pursuing a **National Diploma in Technology at the Institute of Technology, University of Moratuwa**, with a strong interest in IT support, networking, and software development. Experienced in developing academic and personal projects using **React.js, JavaScript, Node.js, MongoDB, and MySQL**, with knowledge of programming, databases, and computer networking concepts. A quick learner with strong problem-solving, teamwork, communication, and technical skills, seeking an opportunity to apply my knowledge, gain practical industry experience, and contribute effectively as an **IT Intern at Sisili Projects Consortium Pvt Ltd**.

🏢 PROFESSIONAL EXPERIENCE

Academic & Practical IT Experience

- Developed web-based applications as part of academic and personal IT projects.
- Gained practical experience in frontend development using **React.js, JavaScript, HTML5, and CSS3**.
- Worked with backend technologies including **Node.js and Express.js** to develop application functionality.
- Designed, created, and managed databases using **MongoDB and MySQL**.
- Applied basic **IT support, computer networking, troubleshooting, and problem-solving** concepts through academic practical activities.
- Used **Git and GitHub** for source-code management and project collaboration.
- Worked effectively in team-based projects, contributing to **planning, development, testing, and technical problem-solving**.
- Demonstrated the ability to learn new technologies and adapt to different technical requirements.

🎓 EDUCATION

National Diploma in Technology (NDT) – Information Technology,

Institute of Technology, University of Moratuwa.

2025 – Present | Diyagama, Sri Lanka

G.C.E. Advanced Level (A/L)

PL / Medirigiriya National School

2021 | Polonnaruwa, Sri Lanka

G.C.E. Ordinary Level (O/L)

PL / Medirigiriya National School

2018 | Polonnaruwa, Sri Lanka

CERTIFICATES

Front-End Web Development

Centre for Open & Distance Learning (CODL),
University of Moratuwa | Department of
Information Technology

Server-side Web Programming

Centre for Open & Distance Learning (CODL),
University of Moratuwa | Department of
Information Technology

React

DP Education IT Campus | Completed: February
2026

Introduction to Express JS

Completed: 10 February 2026 | Certificate Code:
9827425

Introduction to Software Quality Assurance

Centre for Open & Distance Learning (CODL),
University of Moratuwa | Department of Computer
Science & Engineering

Getting Started with Cisco Packet Tracer

Cisco Networking Academy | Completed: 15
February 2026

LEADERSHIP & COLLABORATION

- Collaborated effectively in **team-based academic IT and software development projects**.
- Contributed to **project planning, development, testing, and technical problem-solving**.
- Demonstrated strong **communication, teamwork, adaptability, and willingness to learn**.
- Participated in academic practical activities related to **programming, databases, networking, and IT**.

PROJECTS

Automated Gate ANPR Security & Access Control System

AI-Based Vehicle License Plate Recognition & Security System

- Developed an AI-based system for automated vehicle and license plate detection.
- Used **Python, YOLOv8, EasyOCR, OpenCV, and MySQL**.
- Implemented vehicle entry/exit tracking and security record management.

GuideLanka - AI-Based Safari Tourism Platform

Smart Safari Tourism Web & Mobile Application

- Developed a smart safari tourism platform as part of a **five-member team**.
- Used **React.js, Flutter, Supabase, and Mapbox**.
- Contributed to location-based features, live tracking, and application development.

Smart Home Automation System

Sensor-Based Embedded Home Automation System

- Developed a sensor-based home automation system as part of a **six-member team**.
- Used **ATmega32, Embedded C, LM35, LDR, MQ-2, and Proteus**.
- Implemented sensor monitoring, appliance control, simulation, and troubleshooting.

E-Commerce Backend System

REST full E-Commerce Backend Application

- Developed a REST full backend system for **user, product, cart, and order management**.
- Used **Spring Boot, Java, MySQL, Hibernate, and REST APIs**.
- Implemented backend business logic, database operations, and API integration.
